

# EUROLINE systemic sclerosis profiles

Line blots to support serological  
diagnostics of systemic sclerosis

**Testing for 13 autoantibodies relevant for systemic sclerosis using one blot strip**

**NEW**

**Exclusive\* antigen for the detection of autoantibodies against NVL (nuclear valosin-containing protein-like)**

**Automated processing and evaluation using EUROBlotOne and EUROLinescan**

**Example: EUROLINE Systemic Sclerosis Profile 2**

Control	Ro-52	NVL	Ku	PM-Scl75	PM-Scl100	Th/Tg	NOR90	Fibrillarin	RP155	RP11	CENP B	CENP A	Scl-70
Blank	Weak	Strong	Weak	Weak	Strong	Weak	Strong	Strong	Strong	Strong	Strong	Strong	Strong
